Rough Draft of Pronóstico del tiempo

First, draw a sketch of what your poster or powerpoint slide is going to look like. Write in the days of the week in the smaller boxes and draw the picture of the weather condition in the bigger boxes. Remember, you have been assigned a season for this project so you need to chose weather conditions that logically go with your season.

Now, use your drawing to answer the following questions that will help you write your weather report.

1. State a greeting in Spanish: _____

2. ¿Cómo te llamas?

3. ¿En qué estación estamos?

4. ¿Cuál es la fecha hoy? (Include the day of the week, too! Ex. Today is Monday, November 21.)

5. ¿Qué tiempo hace hoy?

6. ¿Qué día es mañana?
