6A Superlatives

Directions: Translate the sentences to Spanish using the superlative grammar structure we talked about in class. The problems with stars* on them need special words! Don't forget to make your adjectives match the subject in number and gender! Follow the models: (The underlined words in the model are the superlatives!)

MODELO: María is the smartest student in(of) the class. → María es la estudiante más inteligente **de** la clase.

For me, math is the least fun class. → Para mí, la clase de matemáticas es la clase menos divertida.
